

Installation Guide

Picture 1

Parts List: as the picture shows.

Picture 2

Step 1: Connect A to B, then connect wire E (F wire cap), through tooth bar C.

Picture 3

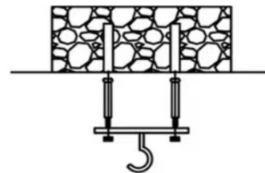

Step 2: First fix the part G to the B metal sheet, and then penetrate into the rod B.

Picture 4

Step 3: Install sleeve D, then install H chain.

Picture 5

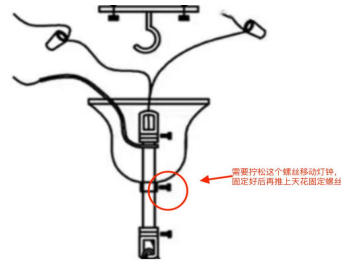

Step 4: Install the hanging plate, use expansion screw N to fix M to the ceiling.

Picture 6

Step 5: Connect to the power supply according to the corresponding wires (three wires of zero, fire and ground), and use wire caps for insulation.

Picture 7

Step 6: Connect the lamp body to the fixed hanging plate, and hang H on M. (Red circle) screws are used to move the light clock for easy installation.

Picture 8

Step 7: Install the K sleeve.

Picture 9

Step 8: Install L.

Picture 10

Completion.
